DESIGN: A. CHEVIGNY

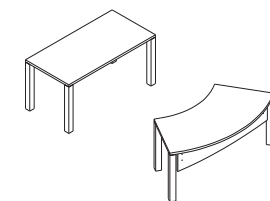

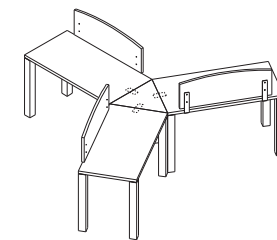

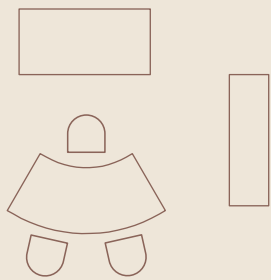

Freedom of space and time, creativity of function and use, these are the reasons for this all-new collection of tables. Small, hexagonal or curved... larger, square or triangular... stationary or movable, arranged end-to-end or in convivial groupings... they complement each other. For a private office or an "AGORA" of decision-makers, these tables will be your favourite tools.

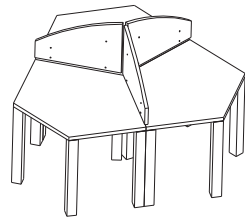

agora

From workstation
to workstation,
from day to day,
the tables change function,
are transformed, moved,
according to the needs
of the growing company.

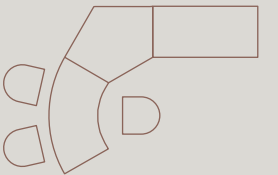

agora

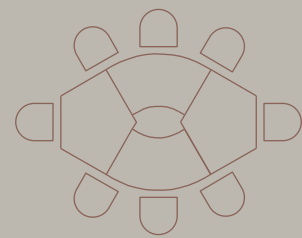

Start with a simple computer desk.
Add this pleasing-yet-practical
curved surface.
Then, as the need arises,
a mobile occasional table.
In a word, do what you please!
With Agora, it's all possible.

Three surfaces to suit your taste,
each with built-in ergonomics
and efficiency.

agora®

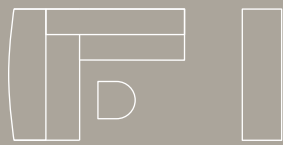

Take these two corner tables, or the three square tables in the training room, or the two curved tables and three rectangular ones in the library... Push them together for the Board meeting and then return them to their respective functions. For total flexibility, choose Agora.

agora

Agora is also a collection of occasional furniture and practical options, fully compatible with Ecco and Oceane components and accessories. A complete solution for the needs of the modern office.

Audio video cabinet, lectern, marker board, occasional tables... and a choice of 16 finishes!
