

CHAMBERS

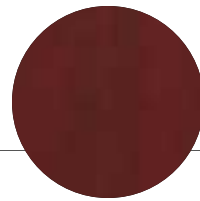

Chambers, a harmonious collection of modular office furniture, with a choice of coordinated edge and hardware styles. Each piece is surfaced with fine cherry. This select veneer is protected with Paoli's exclusive multi-step catalyzed finish that enhances resistance to staining and marring for lasting beauty through years of use.

Modular Credenza

As a modular desk series,
Chambers offers multiple
configurations to
accommodate executive
environments that require
a variety of focused
individual work spaces.
And while configurations
may differ, quality
craftsmanship is consistent
throughout the series.

Chambers' modularity allows specifiers to create a unique combination of furniture options for accommodating the particular size, layout or diversity of functions within an office area.

Worksurface alternatives include executive desks with recessed or stepped modesty panels, conference extensions and P-top work surfaces.

In addition to the expected storage pieces, Chambers includes cabinets with dedicated functions, such as a wardrobe cabinet and a video cabinet with two lateral file drawers. Conference tables and round tables accommodate team meetings or business luncheons. Units with $\frac{3}{4}$ or full pedestals are offered.

Chambers mobile pedestals combine ease of movement with convenient storage.

With dual-wheel casters, pedestals slip smoothly between other cabinets or other pedestals. A black laminate top provides a durable surface for writing and other tasks.

Paoli's attention to detail is the foundation for the superb craftsmanship found in the Chambers desk series. One example is mitered worksurface junctions for a seamless fit.

Desks and credenzas in the Chambers series have letter-width file drawers that accommodate both letter and legal filing. Users can customize the spacious interior of file drawers with numerous filing arrangements to provide the maximum storage capacity.
