

## Intelligent *Modular* Tables

There's no limit to the length of an Intelligent Table! All components are modular with your choice of 3', 4', 5' and 6' wide rectangular tops that are 2" thick for executive appeal. Legs are shaped to provide room for feet, knees and chairs. Half-rounded ends add 5'3" to the table width and can accommodate as many as three chairs. All components feature cherry-finish veneer surfaces and soft-radius, hardwood edges to match the Sonoma casegoods collection.

All tables require 63"x31" half-round table ends, sold in sets of two. Rectangular Tops are used on either side of the table and sold/packed individually; supporting modesty panel included with top. Legs, sold in sets of two, are required at each top connection as well as under table ends.

EX5162 Deluxe High Back Executive Leather Chair

Center cord-drop area helps accommodate technology. Optional black faux leather cover panels rest in step-edge of table tops, allowing instant addition or removal from table.

Tops are 2" thick and feature soft-radius edge design. All tops assemble with heavy-duty metal bolt/nut connection.
