

Diva series

Successful female opera singers and entertainers are often referred to as divas....now there's a new Diva. This Diva doesn't sing, but she sure looks stunning! From your first glance, Diva will captivate you with its great looks, comfort and best of all her terrific value. Diva is

available in six frame finishes and eight brilliant plastic shell colors for a variety of combinations to suit any décor. Diva's generous plastic seat and back wrap you in ergonomic comfort. If that is not enough.... just add upholstered seat and back pads for a custom appearance

and fit beyond compare. Diva's perforated plastic back enhances air flow for a more comfortable seating experience. The back also incorporates a built-in lumbar for proper seating posture and increased comfort. Diva's ergonomically contoured seat has an innovative opening

Stacked

in the seat pan. The opening doubles as a hand hold for stacking purposes and aids in the event of spills or when used for occasional outdoor use.

Diva's glides are dual purpose since they protect the floor and serve as a ganging device. All Diva glides are made of

a non-marring polycarbonate material for years of trouble free service. Each chair comes complete with four glides. The glides on the right side are grooved to accept a tab from the glides located on the left. When connected the chairs form continuous rows that are

easily maintained. Diva stacks 45 high on its cart which will fit through an 84" commercial doorway. It will stack 20 high on the floor. Remember it's not over till the Diva sings!
