

PAOLI FURNITURE™

GIBRALTAR

Gibraltar stands apart on the business furniture landscape, an ideal interpretation of classic design and modern performance. Gibraltar offers a heritage of Paoli woodworking expertise in a value-oriented desk series filled with useful features.

Gibraltar has the appeal of select cherry veneer and raised wood molding, protected by a multi-step catalyzed varnish process. Functional details support optimal use: central locking and writing tablet slides for desks, cable management and available ergonomic accessories.

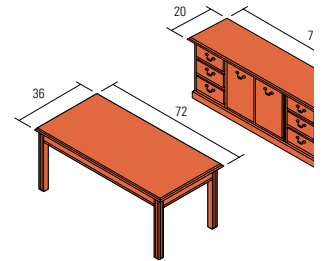

*Paoli partners with the Clean Manufacturing Technologies Institute at Purdue University to implement environmentally-responsible manufacturing technologies.*

### Selecting Your Furniture

- Choose the Gibraltar desk series to furnish your office with richly detailed, finely crafted furniture.
- Specify desk/credenza, U-unit or L-unit configurations to enhance work environments for executives, managers, assistants and receptionists.
- Create computer workstations using Gibraltar's Computer/Work Tables and by specifying keyboard trays that attach to bridges, returns and kneespace credenzas.
- Utilize vertical space with upper bookcases and freestanding bookcases. File letter and legal sized documents in desk, credenza or return drawer pedestals, or use lateral files to centrally locate filing.
- Support conference, meeting and presentation needs with Gibraltar conference and executive tables with coordinating presentation boards.
- Achieve an orderly, efficient appearance in the office with integrated cord management that reduces the cord clutter of typical office equipment such as telephones, calculators, and computers.

### About Paoli Furniture

Since 1926, Paoli has been building on a tradition of furniture-making expertise. Paoli's popularity with the nation's leading companies results from a commitment to customer satisfaction and investing in the capacity and capability to supply one office or hundreds of offices on short notice.

### Your Full-Service Paoli Dealer
