

Icon series

ICON is defined as a significant piece of art, artifact, person, place or thing that is held in high regard. The ICON Series will certainly achieve that status. Designed by John Stafford and Chris Carter, this exciting series delivers sculp-

tured sophistication, elegance, ergonomics and pizzazz! From the first time you look at this incredible eye catching seating group with its unique profile to the sleek cast aluminum parts and tapered appearance you know it is special. ICON

is available as an executive, management and three styles of guest seating. Each chair version now comes with two arm options. The fixed urethane and aluminum arm version is ideal for executive and conference use and the

adjustable T-arms are perfect for the multi-tasking executive or manager. The guest chairs are available in a four leg version with or without casters and a sled base version. The four leg guest chair will also accept an optional bookrack!

ICON is now available in two distinctly unique upholstery versions Icon and the new Icon Ultra. The ICON and its wafer style cushions are made with plush Ultrafoam® and soft fiberfill to provide maximum comfort. ICON utilizes a wrap

over type cushion and head rest and is at home in a variety of office and conference settings. ICON Ultra's upholstery option exaggerates thick-to-thin tapers throughout the back and headrest to provide an ultra sleek appearance.

Icon Ultra's integrated angular shaped headrest adds a unique design element as it goes from thick-to-thin and blends neatly into the back cushion. The Icon Ultra is very sleek in appearance as it is just over two inches thick from

the inside back to the outside back. Icon Ultra provides a crisp waterfall seat front that provides the end user support while allowing proper circulation and increased comfort.

Icon series

Icon's sculptured aluminum back strap is both functional and aesthetic. Uniquely shaped urethane over steel arms with angled connection points and aluminum receivers located underneath the seat that compliment the sculptured back strap

providing sturdy support. The tapered tuxedo back gives ICON a tailored classic look. Ergonomic design and a waterfall seat provides comfort and reduces fatigue. Icon's inner seat consists of one inch of polyester fiberfill material over two inches of high resilient

molded Ultrafoam® for a comfortable seating experience. High profile aluminum or nylon version bases add to the beauty of the ICON series. Knee tilt mechanism with multi position lockout feature is standard.

Icon Ultra series

ICON Ultra's upholstery option exaggerates thick-to-thin tapers throughout the back and arms which gives the product a sense of motion visually. ICON Ultra has a uniquely shaped crisp

waterfall seat that gives support while allowing correct blood circulation via molded Ultrafoam. Integrated headrest with contemporary angular shape on the ICON Ultra version. Ergonomic back

shape and waterfall seat promotes comfort and reduces fatigue. Seven ply high density multi-contoured plywood seat and back. Metal to metal connectors throughout.
