ISO

SERIES

ISO SLED SERIES

Chromcraft is proud to introduce the world's smartest multipurpose guest chair, ISO. The ISO chair features a unique patented weight adjusted leveraging system, which immediately adjusts to the user's own weight, providing a smooth gliding reclining action. When you consider how many hours you spend seated in meetings, why spend them in an ordinary chair?

ISO features a cantilevered seat and a sculptured contoured back with four seat and back options.

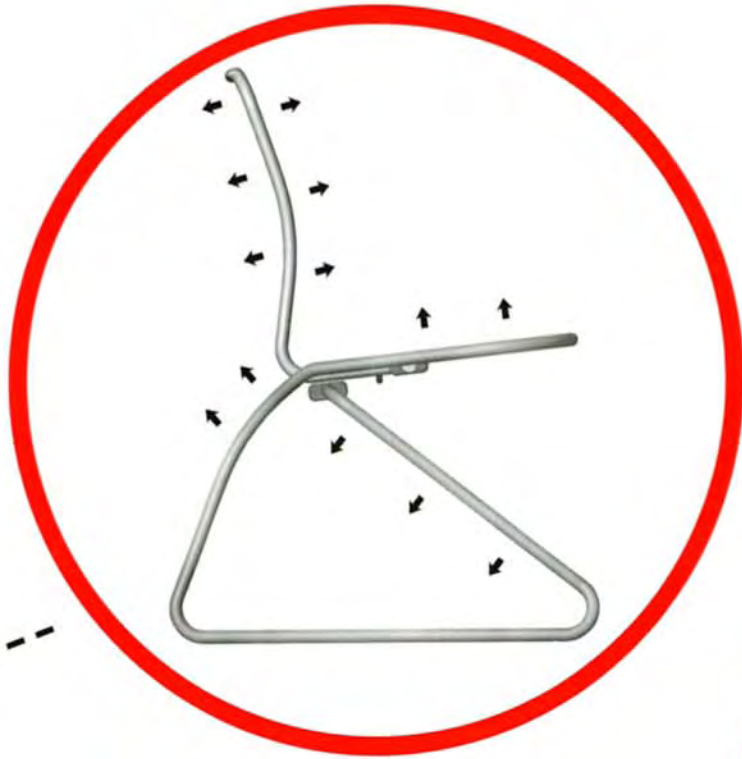

- An injection molded copolymer polypropylene seat and back.
- An upholstered inner seat and back pad in your choice of fabric or vinyl
- A translucent mesh back and an upholstered seat version
- A mesh back and polypropylene seat.

ISO is available in chrome or painted frames so regardless of the application there is a version to fill your needs.

ISO is "comfort in motion"
made affordable

ISO features a unique patented weight adjusted leveraging system, which immediately adjusts to the user's own weight, providing a smooth gliding reclining action.

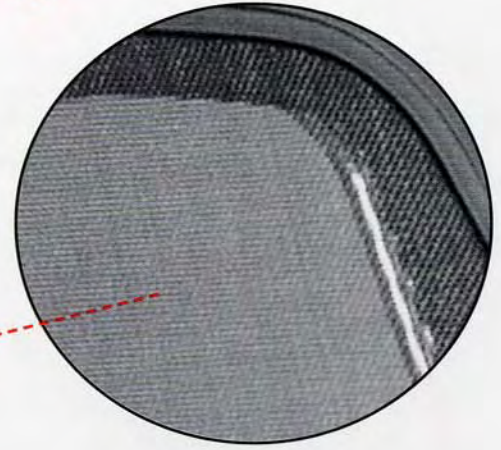

The ISO seat is an injection molded copolymer polypropylene construction with compound contours for all day comfort and that feel of a custom fit.

ISO features a patented cantilevered frame design that is produced from high tensile strength steel tubing and provides a most unique seating experience. Why settle for anything less.

ISO SLED SERIES

ISO is available with a comfortable, breathable, translucent mesh back option.

X964 736 01E

Sit down and you'll feel the patented design immediately glide you into place, attuning to your form, reading the shape of your body. There is simply no chair quite like it. The option and comfort of the ISO chair make it a welcome addition to any setting: be it office, conference, training room or cafeteria. ISO is comfort in motion.

X961 735 77E

The ISO series comes with a decorative protective seat shroud that serves as a buffer as they are nested together.

X962 736 77E

ISO SLED SERIES

ISO's standard polypropylene back utilizes horizontal openings to enhance air flow and comfort.

ISO chairs nest
a maximum of:
5 non-upholstered
3 upholstered

X960 736 77E

ISO arm chairs feature a sculptured injection molded copolymer polypropylene arm pad.

X960 736 01E

ISO TABLET ARM

The ISO Tablet Arm chair provides the same great features and ride as the ISO Sled Series with the added luxury of a folding tablet arm. The 16 ³/₄" wide by 12 ³/₄" deep tablet with an overall depth of 22 ¹/₄" provides a generous work area. The tablet folds up, then down and stores neatly beside the chair providing an easy unobstructed entry and exit.

X959 73R 1E

ISO Tablet Arm chair is available in right or left versions, six laminate options, and black or chrome frame finishes. See our price list for complete details.

ISO COMPANION

The ISO Companion Series is simple, versatile seating at its best. Designed as small-scale multi function guest seating, these chairs provide the same great look as the ISO sled series with a motionless ride keeping them big on comfort and application but low on price. Options include: arms, casters or glides, chrome or painted frames, and 3 seat and back combinations.

For those occasions when mobility is an issue, try the ISO Companion - Caster Version. These chairs nest four high and provide comfortable mobility within any office or training setting.

Seat and Back Combinations:

- Upholstered seat and back
- Plastic seat and back
- Upholstered seat and plastic back

Y962 4C6 01E

The ISO Companion is great in conjunction with the ISO ST in training room applications where additional guests or participant seating is necessary.

Y960 456 77E

When mobility is not an issue, try ISO Companion - Glide Version. These chairs nest easily for easy access for those occasions when training sessions or meetings overflow.
