Merion

Meeting deadlines. Completing tasks. Pursuing opportunities. What we commonly call getting things done. This makes for a good day in any business. But, changing your plans because of something that doesn't work is a different story. So is making do with things that aren't quite right.

One thing we can do for your business is make sure that your furniture works. That you have the right arrangement and that the way your office looks and the way it works supports the direction you've set.

#### WELCOME TO Merion.

It's easy to make offices that work for you with Merion. Your Whitehall Furniture sales representative is there to help. These professionals can plan an office for you, deliver it to your location and set it up. When our crew leaves, you're ready to go.

#### ABOUT WHITEHALL FURNITURE.

Here's a company that understands that you have priorities and ambitions. Your days are about getting other things done, so we make purchasing and owning our wood office furniture and seating easy. We build it to last, using wood-to-wood construction that stands the test of time. We back it with a warranty you can trust, and have a national network of dealers ready to serve you.

#### GETTING STARTED WITH Merion.

We invite you to browse. What inspires you? Which items look like what you have in mind for your office? Then, visit [www.wfi.com](http://www.wfi.com) or dial 800.467.3585 or return to where you got this brochure. Any way you go, you'll find helpful people able to assist you with making your new office work the way you want.

# Merion "Choices."

- 1. **Choose your arrangement.** There are two primary considerations. First, what arrangement do you like? Second, how much space do you have?
- 2. **Choose your surface.** Select the richness of wood veneer. Or, if you or guests in your office slide things around on your desks or tables, choose the durability of laminate surfaces that are color-matched to our wood finishes. A reverse bevel edge distinguishes the Merion series.

- 3. **Choose your finish.** We offer a variety, all of them specially-formulated so your furniture continues looking new after years of use.
- 4. **Choose the hardware for your doors and drawers.** Merion has two styles, in two colors. Look at the other elements in your office design, and find a shape or a color that complements something you have, or something you will have.

- 5. **Choose the styling for doors.** Merion upper bookcases and hanging cabinets offer you a choice. Select wood doors, frosted glass doors with wood frames, or frosted glass doors with Aluma frames.

*The printed samples on these pages are intended to represent wood and metal finish colors as closely as possible, given variations in the printing process. Please request actual samples for use in matching colors.*
