Prominence drawer pulls have a unique design and a Satin Nickel finish.

STRONG, STURDY, SUBSTANTIAL

Full-extension metal ball-bearing suspensions are featured on all Prominence drawers — center, box and file — to offer accessibility, strength and ease of use.

Wood drawers are sanded smooth and finished to a satin sheen. Dovetailed joinery is testament to Paoli's legacy of craftsmanship and durability.

Paoli's exclusive TechAge finish enhances the natural beauty of wood and gives lasting protection.

FILING OPTIONS

Prominence file drawers work best with hanging file folders. And yet, these drawers are built strong enough for those who sometimes keep books and binders there instead.

LEGAL FILING

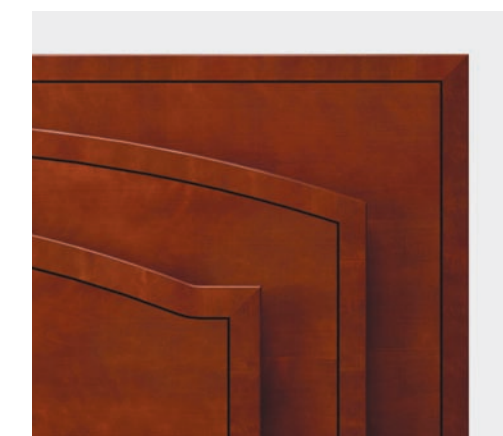

Filing space is abundant in the legal-width file drawers. Legal-width drawers have the size and versatility for multiple arrangements, including side-to-side legal filing.

TASK LIGHTS

Furniture-mounted task lights are standard on upper storage units at no additional cost.

Prominence tops have select, figured maple inlays with quartered cherry borders, separated by an ebony inlay.

Surrounding Prominence tops are distinctively styled solid wood edges that echo the flare of the base molding.
