**TRANSACTION**

# Embrace the Future!

A SINGLE, GREAT IDEA IS THE SPARK THAT IGNITES THE FLAMES OF PROGRESS. THE MAYLINE GROUP INTRODUCES TRANSACTION, THE AWARD-WINNING SYSTEM DESIGNED WITH AN EYE FOCUSED ON THE FUTURE OF OFFICE TECHNOLOGY.

STRIKING DESIGN. INTELLIGENT TECHNOLOGY SUPPORT. SPACE EFFICIENT. SURPRISINGLY AFFORDABLE.

IDEAL FOR TRADING ROOMS, NETWORK OPERATIONS, SECURITY SYSTEMS, ENGINEERING, OR ANY OTHER APPLICATION THAT REQUIRES THE USE OF MULTIPLE FLAT-PANEL DISPLAYS.

TRANSACTION IS A TECHNICAL DESKING SYSTEM WHICH BREAKS DOWN THE PARADIGM THAT TECHNOLOGY-INTENSIVE FURNITURE NEEDS TO BE BULKY, EXPENSIVE, AND CUMBERSOME. DON'T FEAR THE FUTURE, EMBRACE IT.

# Tools of the Trade.

TRADING ROOMS ARE NOT FOR THE FAINT OF HEART. THEY'RE FILLED WITH BOLD, CREATIVE DECISION-MAKERS WHO CAN'T AFFORD TO BE SLOWED DOWN BY INADEQUATE, INFLEXIBLE WORKSTATIONS. FLAT-PANEL DISPLAYS, SOPHISTICATED TURRET PHONE SYSTEMS, SECURE CPU TOWERS, AND ALL THE WIRING AND CABLING THESE COMPONENTS REQUIRE, ALL PERFECTLY SUPPORTED FOR MAXIMUM PRODUCTIVITY.

THE BENEFITS OF TRANSACTION ARE CLEAR. DUAL-SIDED STATIONS, JUST 54" IN DEPTH, SAVE 30% OF THE SPACE REQUIRED BY TRADITIONAL, BULKY TRADING DESKS. WITH TRANSACTION'S UNIQUE WORK SURFACE DESIGN, A FULL 24" OF USABLE SURFACE DEPTH IS PROVIDED, AN INCREASE OF UP TO 50% OVER TRADITIONAL TRADING DESKS. BEST OF ALL, TRANSACTION CONTINUES THE TRADITION OF THE MAYLINE GROUP, PROVIDING HIGHLY FUNCTIONAL, WELL-MADE, ATTRACTIVE FURNITURE AT INCREDIBLY AFFORDABLE PRICES. COMMUNICATE. CONNECT. BE DECISIVE. DON'T WASTE A SECOND.

Dual-sided, 72"W x 66"D stations shown with clam shell end panels. Dual CPU enclosures are shown.

# Take Control.

SUDDENLY A DISPLAY GOES DEAD IN THE NETWORK OPERATIONS CONTROL CENTER. A CONNECTION FAILS. A HARD DRIVE CRASHES. NO NEED TO PANIC. TRANSACTION PROVIDES EASY ACCESS TO ALL TECHNOLOGY COMPONENTS OF A SYSTEM. FLAT PANEL DISPLAYS CAN BE REPLACED IN SECONDS WITH A QUICK-RELEASE CLAMP. ALL CABLES AND WIRES CAN BE ACCESSED FROM ABOVE THE WORK SURFACE BY LIFTING OFF THE SERVICE PANELS. CPU TOWERS ARE TETHERED TO THE STATIONS WITH CABLE MANAGEMENT CHANNELS AND PULL OUT ON MOBILE PLATFORMS OR ENCLOSURES TO ACCESS DRIVES AND CONNECTIONS. TRANSACTION HELPS TO KEEP YOU UP AND RUNNING. ADAPT. GROW. REDUCE DOWNTIME. STAY INFORMED.

Dual-sided, 72"W x 54"D stations shown with hourglass end panels. Single CPU platforms are shown featuring cable management channel tethering platform to station.

# Engineering Marvel.

JOB DONE, IN STYLE. SINGLE-SIDED STATIONS  
ARE IDEAL FOR PERSONAL WORKSTATIONS,  
CLASSROOM-STYLE TRAINING FACILITIES  
OR CALL CENTERS. IT'S AMAZING WHAT  
TRANSACTION CAN DO WITHIN A 30"  
DEEP SPACE. IT SUPPORTS MULTIPLE  
FLAT PANEL DISPLAYS, MANAGES EXTREME  
AMOUNTS OF CABLES AND WIRES WITH  
EASE, AND PROVIDES A FULL 24" OF  
USABLE WORK SURFACE DEPTH.  
DESIGN. EDUCATE. GET IN TOUCH.  
REACH OUT.

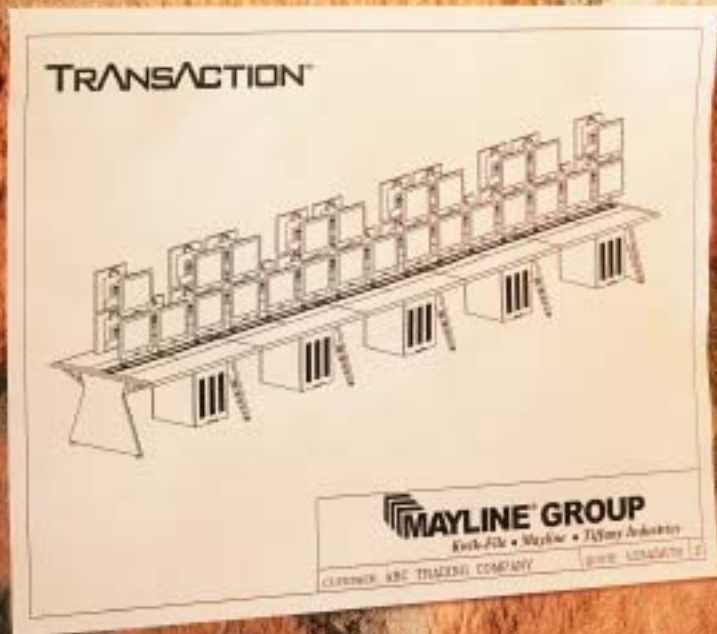

*Single-sided, 60"W x 30"D stations shown in Platinum  
Gray laminate with DuraEdge fronts. Optional modesty  
panels are attached to the back of the stations. Both single  
and dual height flat panel display supports are shown.*

## DESIGN SERVICES

WITH MAYLINE GROUP'S FULL-TIME STAFF OF DESIGN/LAYOUT SPECIALISTS, GETTING THE HELP YOU NEED IS AS EASY AS PICKING UP THE PHONE AND DIALING 1-800-822-8037 AND ASKING FOR OUR FREE DESIGN SERVICE. PUT OUR EXPERTS TO WORK.

TRANSACTION'S EFFICIENT USE OF SPACE CAN SAVE UP TO 30% OF VALUABLE REAL ESTATE WHEN COMPARED TO BULKY, TRADITIONAL TRADING DESK DESIGNS. THIS 2,300 SQ. FT. LAYOUT SHOWS 70 TRANSACTION TRADING STATIONS AT 54" DEEP WITH APPROPRIATE OFFICES, CONFERENCE AREAS, AND FILES. WITH 84" DEEP TRADITIONAL TRADING DESKS, 3,000 SQ. FT. WOULD BE REQUIRED, AN INCREASE OF 30%. TRANSACTION OPTIMIZES YOUR INVESTMENT.

## CONNECTION SPEED

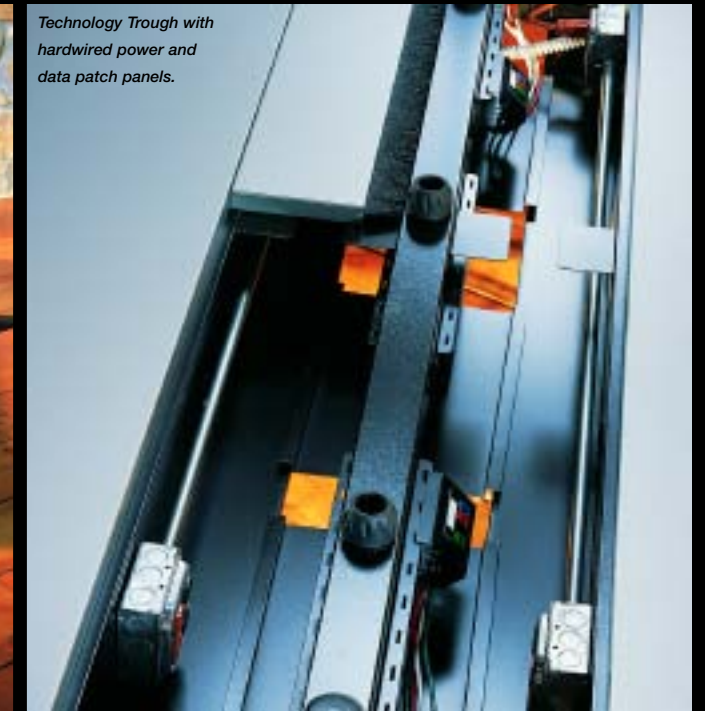

Open steel frame ready to be wired up.

THE NERVE CENTER OF TRANSACTION'S DESIGN IS ITS TECHNOLOGY TROUGH. ALL POWER LINES, DATA AND VOICE CABLES, AND EQUIPMENT CORDS ARE COMFORTABLY MANAGED WITHIN THE TROUGH, SPANNING WORKSTATION TO WORKSTATION. REMOVABLE SERVICE PANELS LIFT AWAY WITH EASE.

Finished service panels easily lift off for above surface access to Technology Trough.

Technology Trough with hardwired power and data patch panels.

IN PLACE, THEY SERVE AS ADDITIONAL WORK SURFACES. WHAT'S MOST IMPRESSIVE IS THAT THE ENTIRE TECHNOLOGY TROUGH CAN BE ACCESSED FROM ABOVE THE WORK SURFACE. NO NEED TO WORK IN DARK, CRAMPED SPACES TO GAIN ACCESS TO YOUR CRITICAL TECHNOLOGY.

Patch panels can be connected or moved easily into slots in support beam.

**ACCESSORIES**

*Optional cable closet conceals and protects wires and cables.*

*Stylish flat panel display supports available with optional extension arms and quick release system.*

*Dual or single CPU enclosures feature standard lock and wheels.*
